

QUALITY POLICY

The quality policy of "ATENEIA, Geotechnical Consultants, Private Technical Company" is expressed by the establishment of necessary specifications, so as to render customers with services that are regarded as of high quality whilst they meet the required specifications and the compulsory standards.

The company has incorporated, operates and continuously improves a quality management system, which fully complies with the ISO 9001: 2015 standards. Through the implementation of the system the company focuses on the improvement and development of its services, on reliability, on the improvement of services and on the most efficient organization.

Scope of certification according to ISO 9001:2015:

- Geotechnical Studies and Surveys (category 21)
- Geological and Geophysical Studies and Surveys
- Provision of Technical Consultant services
- Structural Design (category 08)

The company's policy is based on the full implementation of the procedures and processes of the Quality Management System according to the ISO 9001:2015 standards and the way they interrelate in all its activities, thus developing sufficient confidence that the delivery of the services offered will conform with specified safety, legislation and quality prerequisites. The objectives are reviewed and corrected by the leading team at regular intervals in the context of the review to reassure their objectivity and appropriateness.

Moreover, the leading team and the employees of "ATENEIA PC" are committed to:

- the solid implementation and continuous improvement of the Quality Management System according to ISO 9001:2015
- the continuous training of its associates, in order to ensure a high level of expertise
- the monitoring and correcting non-compliances during the provision of services
- the continuous improvement of customer satisfaction
- the compliance with the legal and regulatory requirements of national and European regulations

This quality policy is communicated to the employees of "ATENEIA PC" and to other interested parties.
